FOREWORD

The Technical Cooperation Scheme of Colombo Plan was started with a view to providing technical assistance to neighboring Colombo Plan countries. Through this Scheme, Government of India provides a comprehensive and integrated training to participants from member countries of Colombo Plan with the purpose of assisting them to enhance their administrative and technical capabilities through human resource development.

In this scheme, around **410** scholars receive training in different institutes in India every year. The trainees are drawn according to the quota of slots earmarked for their respective countries. The trainees are provided with air fare, tuition fee, accommodation and living allowance to cover daily expenses.

This publication provides an updated information on courses to be organised by various institutes in India during April, 2008 to March, 2009. The details of training programmes given in this publication are also available on the Ministry of Finance's web site **www.finmin.nic.in**. The procedure for applying for these courses and receiving training awards is outlined in Appendix B.

I am sure, member countries will find the information contained in this publication very useful for planning and nominating their officers for various courses with a view to raise the skill level of the human capital stock in their respective countries.

HOW TO APPLY FOR A TRAINING AWARD UNDER TCS OF COLOMBO PLAN

Candidates wishing to apply for any of the training programmes contained in this booklet must do so through the Indian Mission/Embassy in their country.

Each country has an Indian Mission/Embassy with whom this Department works closely in the matter of selecting candidates to receive fellowships to attend these training programmes.

Indian Missions/Embassies are provided with details of various courses proposed to be conducted during a year. The Indian Missions/Embassies, in turn, bring the details of the programmes to the notice of the Governments under their accreditation and request them for nominations. The nominations should be on Form A.2-3 which is available with the Indian Missions/Embassies (Appendix B). The nominations so received are scrutinised by the Indian Missions/Embassies and are sent to this Department. This Department processes these nominations with the concerned institutes. The institutes, after determining the suitability of the candidates, invite them through the Indian Missions/Embassies under intimation to this Department. The air passage is arranged by the Indian Missions/Embassies in participating countries.

Due to the heavy demand and limited number of places, early received of applications are encouraged for all training programmes. It will, therefore, be in the interest of the applicants if applications, after completing all the formalities, are forwarded to this Department 6 weeks prior to the commencement of the training programme.
